REPORT OF STREET COMMITTEE.

*To the Common Council:*

Your committee on streets to whom was referred the petition of certain persons interested in lands on Brooks street asking for grades and grading on such street, and a certain resolution asking for an appropriation to grade Gott street, and a certain communication from the Board of Public Works asking for an appropriation for the grading of East Huron street and Thirteenth street, and a certain petition of property holders on Depot street objecting to the laying of a spur track along Depot street crossing Fourth avenue, and a certain petition of residents on Monroe street, asking for a grade to be established, and to grade the street to the grade, respectfully report that they have had the various matters under consideration, and would recommend that all such matter be disposed of as follows:

That the petition and resolution

from Brooks and Gott streets be granted, and an appropriation made of \$250 for the grading of Brooks, Gott, and Summit streets.

That the sum of \$500 be appropriated from the street fund for the grading of Huron street, from Ingalls to Thirteenth streets, also Thirteenth street, from Huron to Ann streets.

That the petition and protest of laying a spur track along Depot street, crossing Fourth avenue, be denied, and the M. C. R. Co. granted permission to lay said track, and to plank said Fourth avenue crossing 32 feet in width.

That the Board of Public Works submit memorandum for a suitable street grade on Monroe street, and that the sum of \$50 be appropriated from the street fund for the grading of said street.

That the petition from residents and property owners on First street be referred to the Board of Public Works, with power to act in the matter.

On motion of Ald. O'Mara the report was accepted and filed.

REPORT OF THE FIRE DEPARTMENT COMMITTEE.

To the Common Council:

Your committee on Fire Department, to whom was referred the communication of the Board of Fire Commissioners relative to equipping a fire company in the 6th ward, respectfully report that they agree with the board, that it would be inadvisable and inexpedient to weaken the department at the central station. The board estimates that it would cost \$3,975, and that the maintenance after the first year, the company would cost annually \$2,250. While this seems to be a large sum of money, nevertheless your committee deem the establishment of the company in the 6th ward necessary for the ample protection of property in that ward, and parts of the 4th and 1st wards.

We would therefore recommend the appropriation of \$4,000 for the estab-

lishment of a company in the 6th ward and its maintenance for one year.

Respectfully submitted:

J. O'MARA.

A. J. KITSON,
