COMMUNICATIONS.

ANN ARBOR, MICH., Sept. 18, 1891.

To the Common Council, City of Ann Arbor:

I hereby tender you my resignation as a member of The Board of Public Works, the same to take effect Sept. 18th.

Thanking you for past favors, shown me as a member of the Board, I am

Most respectfully yours,
THOS. J. KEECH.

Received and filed.

FROM THE BOARD OF PUBLIC WORKS.

To the Common Council:

The Board of Public Works, beg leave to submit the following report of its doings in the matter of obtaining bids for the construction of lateral sewers in Districts No. 1 and No. 2.

The Board caused notice of the City wants to be published in the local newspapers and also distributed among well-known sewer contractors such notice; and as a result on the day set for closing such offer, had seventeen bids, all of which bids are submitted herewith. Each bid was accompanied with the necessary certified bank check.

After due consideration of all tenders for the construction of the said lateral sewers, the Board of Public Works finds that the bids of Stevenson, Reid & Co., of Port Huron, Mich., for building lateral sewer in District No. 1, and of Herman Hutzler for building lateral sewer in District No. 2, together with estimated extras in each sewer district respectively, are the lowest bids received and recommend that the said bids be accepted and that contracts be made with such parties.

By order of the Board of Public Works,
W. J. MILLER,
Clerk.

Received and filed.

FROM THE SAME.

To the Common Council:

The Board of Public Works, to whom was referred the matter of preparing plans and estimate of the cost of rebuilding the main sewer, &c, as recommended by special sewer committee, report that the Board caused the City Engineer to make plans of a change of route, commencing at the man hole north of the M. C. R. R. tracks thence running westerly on the M. C. R. Co. right of way to the east end of their Freight office thence south and intersect with the main sewer on Depot street. The Board have caused an estimate to be made of this route which is \$3,905.35, and an estimate for the repairing of the main sewer on old line, \$4,180.95 with 24-inch iron pipe which plans and estimates are herewith submitted and made a part of this report.

And further, it is the sense of this Board that the repairing or rebuilding of the main sewer as recommended by the special sewer committee is not advisable nor desirable until a failure thereof demonstrates the necessity for such repairing or rebuilding and then should occasion require, we recommend the building of the sewer on the proposed line north of the M. C. R. R. tracks.

By order of the Board of Public Works.
 W. J. MILLER,
 Clerk

Received and filed.

FROM THE SAME.

To the Honorable, the Common Council of the City of Ann Arbor:

Whereas, it is the sense of the Board of Public Works that the city is paying more for its engineering service than is commensurate with the returns therefor, and whereas it is the sense of this Board that a map such as Mr. Cottingham proposes to furnish by Section 3 of the enclosed proposed contract with him, is desirable, if not a necessity, and whereas Mr. Cottingham proposes to furnish such a map for the gross sum of \$300 in addition to a monthly salary of \$100 per month, which salary (per article 4 of proposed contract) includes all help, etc., all to be completed within the time specified therein. Now, therefore, we the Board of Public Works respectfully request that your Honorable Body recommend the entering into a contract with Mr. Cottingham substantially as set forth per the herewith submitted letter bearing date July 17th, 1894, and accompanying unexecuted contract. All of which are respectfully submitted for your consideration and recommendation.

By order of the Board of Public Works.
 W. J. MILLER,
 Clerk.

Received and filed.

To the Common Council:

The Board of Public Works submit the annexed bids which they have received for the construction of sidewalks, where not built by the property owners, for your consideration.

C. H. Stevens is the lowest bidder for building sidewalks on Observatory street, along the west side from Volland to Ann streets. His bid, on striking an average, is about \$5 per rod.

All things considered, the Board recommends that the bids be accepted and contract executed.

By order of the Board of Public Works.
 W. J. MILLER,
 City Clerk.

Received and filed.

FROM THE SIDEWALK COMMITTEE.

To the Common Council:

Your committee on sidewalks, to whom was referred the petitions asking for the construction of two crosswalks, one along the north and one along the south side of West Liberty street, across Ashley and Second streets, find that there is a necessity for the construction of the crosswalks where asked for by your petitioners and would therefore recommend that an appropriation of \$100 be made from the bridge, culvert and crosswalk fund, and that the Board of Public Works be hereby directed to build said crosswalks, and we further recommend that the grade of the crosswalk on Ashley street be raised eleven inches in the center of said street so as to bring a uniform grade from sidewalk to sidewalk.

Respectfully submitted,
 C. H. MANLY,
 C. J. SNYDER,
 D. F. ALLMENDINGER,
 ARTHUR J. KITSON,
 C. W. WAGNER,

FROM THE SIDEWALK AND STREET COMMITTEES.

To the Common Council:

Your Committee on Streets and Sidewalks, to whom was referred the matter of sidewalk grade on E. Huron street along the south side between Twelfth street and Thirteenth street, beg leave to report that they visited this locality in a body and fully inspected the same, and after careful consideration would recommend the following:

That Mrs. Lukins be permitted to raise her walk 24 inches on the east end. At 114 ft. westerly from the east end 11 inches, and from this last point to join the highest point in the established grade.

Also that the Board of Public works cause the City Engineer to establish a suitable gutter grade, for the approval of this council, so as to take care of the surface water on and along the west side of State street between Liberty and Williams streets.

Respectfully submitted,
 C. H. MANLY,
 A. J. KITSON,
 Sidewalk Committee.
 CHRISTIAN MARTIN,
 H. G. PRETTYMAN,
 P. L. BODMER,
 Street Committee.

Accepted and recommendations concurred in.

FROM THE LIGHTING COMMITTEE.

To the Common Council:

Your committee on lighting to whom was referred the petition of the property owners on West Huron street, asking that the last light on said street be changed to a place where it may give equal benefit to the resi-

dences in that vicinity, would report that they visited the locality and fully inspected the same and would recommend the following, namely:

That the light on Weet Huron street be moved from the north to the south side of the street. We would also recommend that the light now located on South State street at Hamilton Park addition, be moved and located at the intersection of Huron street with Dexter and Jackson roads. Your committee makes this recommendation for the reason where this light now is located on South State Street there are but three houses and two of them only are now occupied, and between these houses and the city there is about a quarter of a mile which is nothing but farm land, and for this reason your committee recommends such a change.

Respectfully submitted,
 CHRISTIAN MARTIN,
 W. L. TAYLOR,
 Lighting Committee
