To the Common Council:

Your Committee on Lighting to whom was referred the bids for lighting the City would report that the lowest bid for 265 nights from twilight to 12:30 is \$60, per light per year a saving of \$13,

per light or \$1248, per-year being a total saving of \$6240, during the term of five years or nearly the cost lighting the city during the last year.

Your Committee has also considered the bid of \$80 for 265 nights all night and find that the same would cost \$7680, per year an advance of \$672 per annum. After considering the subject fully your Committee has considered, and so recommend to this Council, and it would be to the best interest of the City to accept the bid of the Michigan Electric Co. for lighting the City 265 nights from twilight to 12:30 at \$60, per light of 2000 candle power and \$31 for lights of 65 candle power, from January 1st, 1896.
