Special Committee on Printing. .
To the Honorable the Common Council of the City of Ann Arbor.

Gentlement:—Your committee appointed to consider the several bids for city printing respectfully report:

That we have had three meetings of our committee and several conferences with the representatives of the several papers at their request. our first meeting we discovered that the bid of the Ann Arbor News only mentioned proceedings of the council and the question arose as to whether that would include all city printing. We notified the manager of that paper that if we were to consider his bid we would prefer that it be made more explicit and include proceedings of the board of public works and all legal notices. He said it was the intention to cover all city printing and he would cheerfully amend his bid to meet the wishes of the committee. We also notified the other two papers that they were at liberty to make any

changes in their bids that they desired and also that the committee would like a guarantee that the price would not exceed a certain limit for the next The clerk, at our request, five years. wrote to the clerks of twenty-five cities in this state, of as near the same class as Ann Arbor as possible, and aked the price paid for city printing and received replies from twenty-four of them showing a range of from six cents up to seventy cents per folio. We also inquired into the matter quite thoroughly in other ways, and your committee became convinced, after quite full investigation, that while there is not a great profit in printing proceedings at fifteen council cents per folio, yet it is a living rate and about equal to what an individual having the same amount of work could get it done for, and in view of the fact that the proceedings of the council and board of public works possess a certain value to a newspaper as news, the rate of fifteen cents per folio is not unreasonably low. In fact six of the cities from which we received reports pay an average of about fifteen and one-half cents per tolio for printing while some pay a much higher rate.

At our last meeting, held on May 17th, we received the bids hereto annexed, and, in order that full publicity may be given the proceedings of both the council and the board of public works, and in view of the further fact that the bids are quite reasonable, and it will cost the city nine cents per folio less to print them in all three papers than it has heretofore cost for printing them in two only, we recommend that all the bids for publishing the proceedings of the council and board of public works be accepted. And we further recommend that as the Ann Arbor News was the first paper to offer to reduce the price, that its bid for publishing the council proceedings in pamphlet form be accepted.

> Respectfully submitted, E. B. MANWARING, HORATIO J. ABBOTT, GEO. H. FISCHER,

Committee.

Ann Arbor, Mich., May 16, 1906. To the Special Committee of the Common Council of the City of Ann Arbor.

The undersigned hereby offer to print the proceedings of the council and the required legal notices, and the proceedings of the board of public works in the Daily Argus and the Daily Times at the rate of fifteen cents a folio, each, for a period of one year and agree that for a period of five years the rate shall not exceed the present price of 27 cents a folio. This change of b'd is at the suggestion of the special committee.
