(From Board of Water Commissioners)

To the Honorable
Common Council
City of Ann Arbor

Gentlemen:

We respectfully request that you arrange for an election to present a bond issue on Monday, April 7th, 1930, in the amount of \$325,000 to cover contemplated improvements to the distribution system of the City water supply plant.

The improvements contemplated with estimated costs are as follows:

(1) 6,000,000 gallon, reinforced concrete covered reservoir with surface elevation at 10 feet higher elevation than present reservoir, with connection to water mains—\$110,000.00.

(2) Cast Iron Trunk Line Water Mains—\$150,000.00.

(3) Connecting dead end mains and installing additional hydrants—\$45,000.00.

(4) Contingencies and Engineering—\$20,000.00.

Total—\$325,000.00.

The six million gallon reservoir is to replace the present two million structure, which is an old open type structure and in bad condition. For years the old reservoir has not been considered safe to carry more than one million gallons storage, and this amount is dangerously inadequate. The proposed new reservoir is to be of reinforced concrete and entirely covered and of sufficient capacity to insure the city against a shortage of water in the event of a bad fire. The covered reservoir will keep the water in better condition and at a lower and more uniform temperature.

The cast iron trunk line water mains are for strengthening and improving the distribution system and will insure adequate water at times of maximum demand to all parts of the city and at slightly better pressures, and at a much more uniform and satisfactory quality to all consumers.

The new trunk line mains, together with the contemplated smaller connecting dead end mains will relieve the condition of stagnant water throughout the city and will improve the condition of the water to all consumers.

Your Water Board feels that these are badly needed improvements and are so laid out that they will work in with, and in fact be necessary to, any future developments of the water system.

The interest on the proposed bond issue together with the retirement of the bonds will be paid from the revenue of the Water Department and will not therefore in any way effect the taxes of the

city.

Respectfully requested,

ROBERT NORRIS
W. H. L. ROHDE
JOHN LINDENSCHMITT

Board of Water Commissioners.
January 14th, 1930

Adopted by the following vote: Yeas, Ald. Wuerth, Sauer, Graf, Schlenker, Harris, Bradley, Severance, Townley, Freeman, Fisher, Pres. Myers. 11. Nays, none.

tion."

(Council Action)

Moved by Ald. Freeman that the report of the committee of the whole be accepted and that recommendation be approved by Council.

Adopted by the following vote: Yeas, Ald. Wuerth, Sauer, Graf, Schlenker, Harris, Bradley, Severance, Townley, Freeman, Fisher, Pres. Myers, 11. Nays, none.
