COMMUNICATIONS FROM THE MAYOR.

To the Honorable the Common Council:

Gentlemen—There is no provision in the charter or ordinance for the appointment of a City Physician. I therefore recommend that you employ Miss Anna Flynn, M. D., or some other suitable person as City Physician, for the period of one year from this date.

May 1, 1893. B. M. THOMPSON,
Mayor.

To the Honorable the Common Council:

Gentlemen—I have made the following appointments subject to your approval:
Parris Banfield, Marshal of the city.
George H. Pond, Treasurer.

Thomas J. Keech, Member of the Board of Public Works.
James E. Harkins, Member of the Board of Fire Commissioners.

Gottlob Luick,
Warren E. Walker, } Members of the Board
Herman Krapf, } of Building Inspectors.

I have not appointed any member of the Board of Health. It has been customary here-

tofore for one member of that Board to act as Inspector, and to be paid for such special service. I suggest that it is advisable to have the Board employ an inspector, so that the Board may have the power to change their inspector at any time. If this suggestion meets your approval and you authorize the board to employ an Inspector at a salary to be fixed by you. I will then make an appointment with your action in view. If you desire to continue the present system I will then make an appointment of some person who will perform the duties of Inspector.

ANNUAL REPORT OF BOARD OF HEALTH.

His Honor, the Mayor and Common Council of the City of Ann Arbor:

The Board of Health, and Health Officer submit their annual report. Whole number of deaths during the past year, one hundred and thirty-six. The diseases causing death and the number of deaths from each disease are as follows, viz: Consumption, 19; heart disease, 13; old age, 11; pneumonia, 7; la grippe, 6; cancer, 5; infant diseases, not classified, 7; dropsy 5; cholera infantum, 5; apoplexy, 4; paralysis, 4; scarlet fever, 4; blood poison, 4; childbirth, 4; rheumatism, 4; peritonitis, 3; croup, 2; convulsions 4; brights disease 2; diphtheria, 2; softening of the brain, 2; jaundice 2; accidents, 2; brain disease, 3; poisoned from eating canned fish, 1. Inflammation of the stomach, nervous prostration, ulcer, bilious fever, typhoid fever, spinal softening, pleurisy, diabetes melitus, sunstroke, drowned, burn, one each; making a very low death-rate comparing with other cities.

We would recommend that your honorable and wise Council should make an appropriation or create a fund to be used by the Board, of Health, in emergencies; and by the consent of the Common Council, Board of Public Works, and Fire Department, to pay for property destroyed by fire; by the order of the Board of Health, to prevent the spreading of diseases dangerous to the public health of the city of Ann Arbor; also to defray any other

expense necessary to renovate or disinfect. The time is fast approaching when the cholera "scare" will make its appearance. With a prospect of an unusual amount of travel through our city during the summer and autumn, with a possibility of contagious diseases being brought to us from foreign countries, we would recommend that another "thorough" house to house inspection be made at once, and the whole city be thoroughly renovated before the hot weather commences. In order to do this it will be necessary to increase the salary of your health inspector who did much for the city the past year for a very small salary. The Board of Health wish to recognize the courtesy and efficiency of the Police Department during the past year for their promptness in the execution of the duties imposed on them by the board.

The question of sewers does not need agitation, but the health and cleanliness of the city needs constant care and watching.

Respectfully,

ELI W. MOORE,

President of the Board.

Dated Ann Arbor, May 1st, 1893.

JOHN KAPP,

Health Officer.

P. S. One hundred and fifty dollars is too small a salary for a competent Health officer. Five hundred is my price.

Ald. Taylor moved that the report be received and spread on the journal.
Adopted.
