COUNCIL CHAMBER. (Ann Arbor, February 1st 1897.) Regular Session.

Called to order by Pres. Hiscock. Roll Called. Quorum Present.

COMMUNICATIONS FROM THE MAYOR.

To the Common Council of the City of Ann Arbor:

Gentlemen: — The Ordinance to amend an ordinance relative to Licenses passed by your honorable body at its last session, I hereby disapprove for the following reasons:

To my mind the insertion of the words "of their own production" in section 7 is too far reaching and in the wrong direction. Section 7 as amended reads as follows:

Section 7. Every hawker pedler or person going about from place to place, or who makes use of any of the streets or open places in said City, selling or offering for sale goods, wares, merchandise or any species of property, shall pay a license therefor in the sum of one hundred dollars per year, or fifty dollars for a period of six months. And for a period of less than six months such person shall pay a license therefor as follows; that is to say: If he intends to travel on foot, one dollar per day; if he intends to travel with one horse one dollar and fifty cents per day; if he intends to travel with two or more horses or other animals, two dollars per day for every vehicle so used. Any person selling or exposing for sale any such goods or property from any wagon, hand-cart, show-case or stand, in any street or open place, shall pay the sum of three dollars per day, and in granting a license for any such purpose in any street or open place the Mayor shall designate the street and place where any such wagon, hand-cart, stand or show-case, shall be located and shall have power and authority to change and relocate the same from time to time in his discretion. Provided, this section shall not apply to persons selling

domestic fruits, dairy, farm or garden produce, of their own production, nor bakers or merchants delivering to goods to their customers in said City. Under our present ordinances all farm produce (including dressed meat) may be sold in any quantity direct from the farmers' pedlers' or citizens' wagons to our people at their doors free from license or charge of any kind, while by inserting the words "of their own production" you prevent the peddling of farm produce in our City without a license unless such produce is of the peddlers own production. I believe such an ordinance unjust to our citizens. It not only takes from them the right to use their own judgment when buying supplies for their families but it prevents them from going into the country and buying such products and selling them around town thereby earning a living. It has been the practice of a great many of our teamsters to go into the country and buy up large quantities of wood and during the winter haul it to town and sell it. Others there are who go out and buy butter, eggs, poultry etc, which they bring in and sell to our citizens, all of which is prohibited by this amendment. It also prohibits our milkmen from selling only the milk from their own dairy and as they all or nearly all are dependent upon others-wholly or in part-for their milk it can easily be seen that if the proposed ordinance was to become law the workings of it might become a serious matter to our citizens.

You have reduced, somewhat, the license rates but they are still excessive and prohibitive to such a degree that I believe will invalidate the ordinance and will in that direction be no improvement on the old. If our people can save any money by buying direct from the farmer or 1f any of them can make a little by going into the country and buying of the farmers the products of their farms and bringing in and selling it to our citizens it is not in my opinion the duty of your honorable body to deny them the privilege. I cannot see where our people are to derive any benefit while it is plain to be seen where they would be greatly injured by the opera tions of this amendment.

It would have, the effect of turning the trade of a goodly number of farmers to surrounding towns who heretofore have patronized our (ity. It has a tendency to raise the cost of living which may be the cause of our citizens moving away as well as of preventing others from coming here to live. Altogether I consider it against Public Policy and it should never be given a place among our ordinances.
