

Council Chamber.

Ann Arbor, Mich., Jan. 18th, 1909.
(Regular Session.)

Meeting called to order by President Walz.

Present: Ald. Stark, Georg, Hochrein, Murray, Sweet, St. James, Pipp, Manwaring, Sherk, Goodyear, Smith, Lutz, Pres. Walz—13.

Absent: Ald. Abbott—1.

Minutes of previous meeting approved.

COMMUNICATIONS.

January 18th, 1909.

The Honorable the Common Council:

Gentlemen—I beg to submit for your approval the name of Thomas D. Kearney as Park Commissioner, to fill the unexpired term of Dr. R. S. Copeland, resigned.

Respectfully yours,

J. C. Henderson, Mayor.

Approved as follows:

Yeas—Ald. Stark, Georg, Hochrein, Murray, Sweet, St. James, Pipp, Manwaring, Sherk, Goodyear, Smith, Lutz, Pres. Walz—13.

Nays—None.

(Enter Ald. Abbott.)

From University Hospital.

Ann Arbor, Mich., Jan. 8, 1909.

Mr. Ross Granger, City Clerk, City:

Dear Sir—In reply to yours of the 5th inst., I herewith enclose a tabulated statement of the city cases cared for in the University Hospital for the year ending 1908. I think the members of the council understand that the free beds for city cases are in the ward, and that we are not to give private rooms or special nursing. Some of the cases which have come to us required this care which you will notice was given them. The estimated number of weeks computed by the total cost would equal seventy-five weeks and a fraction. Since last April no city cases have been denied admission to the hospital and we always welcome them when we have room. In entering into this agreement, I notice the Board of Regents have made it very plain that emergency cases be cared for, and that others be cared for when we have room.

Trusting this explanation will meet your wishes, I am

Very truly yours,

Dictated. J. B. Draper, Superintendent.
And in no case shall the Poor Commissioner purchase supplies or provisions to exceed ten dollars at any time without consent of Poor Committee, or a major-

ity thereof. No fuel or other supplies amounting to over twenty-five dollars shall be made without submitting the proposed purchase to the Common Council.

Sec. 5. The said Poor Commissioner shall have power to receive and dispose donations for the relief of the poor, but in his monthly statements to the City Clerk, as hereinafter provided, he shall report in detail all cash donations and the distribution of the same. He may act in conjunction with any society or organization for charitable purposes in the city of Ann Arbor and when permitted shall examine the register of all persons receiving relief from such society or organization.

Sec. 6. It shall be the duty of the said Poor Commissioner, when any person being a city pauper shall, by himself, herself or another, apply for relief, to personally make immediate inquiry into the state and circumstances of the applicant and if it shall appear that he or she is in such indigent circumstances as to require prompt support (and is not so sick, diseased, lame or otherwise disabled as he or she can not safely be removed) to remove such person to the Poor House to be relieved and cared for as his or her necessity may require; but if such person can not safely be removed for any of the reasons hereinbefore specified, the said Poor Commissioner may afford such persons relief under the provision of this ordinance until such time as he or she can be so removed and if it shall appear that any person applying for relief as aforesaid requires only temporary or partial support the said Poor Commissioner shall afford him or her such relief as the circumstances of the case may require; such temporary or partial support shall be given in provisions, clothing or fuel to be delivered to such applicant at the place where he or she resides.

Sec. 7. Whenever from sickness or other disability the City Physician shall deem it necessary to place any city pauper in a hospital, he shall do so by removing such pauper to a free bed in one of the university hospitals. Provided, however, that if for any reason, it shall be necessary to place a pauper patient in a private room, than it shall be the duty of the City Physician to place the said patient in a private room in one of the University hospitals, the extra cost to be paid by the Poor Commissioner.

Approved and respectfully submitted to the Finance Committee.

Ross Granger, City Clerk.

Finance report adopted as follows:

Yeas—Ald. Stark, Georg, Hochrein, Murray, Sweet, St. James, Pipp, Manwaring, Sherk, Goodyear, Smith, Abbott, Lutz, Pres. Walz—14.

Nays—None.

Ordinance Committee.

Ald. Manwaring presented an ordinance entitled: "An ordinance authorizing the regents of the University of Michigan to lay and construct a trolley track in the streets, lanes and alleys of the City of Ann Arbor," which was given its first reading by title and passed to and given its second reading by the following vote:

Yeas—Ald. Stark, Georg, Hochrein, Murray, Sweet, St. James, Pipp, Manwaring, Sherk, Goodyear, Smith, Abbott, Lutz, Pres. Walz—14.

Nays—None.

On motion of Ald. Manwaring the above ordinance was referred to the ordinance committee by unanimous vote of those present—14.

Ald. Manwaring presented an ordinance entitled: "An ordinance relative to the Poor of the City of Ann Arbor," for its third reading as follows:

An Ordinance Relative to the Poor of the City of Ann Arbor.

The Common Council of the City of Ann Arbor ordain:

Sec. 1. All the powers and duties connected with and incident to the relief and care of the poor of the city of Ann Arbor shall be exercised by the poor committee of the Common Council under such regulations as the Common Council of the city of Ann Arbor shall from time to time provide.

Sec. 2. There shall be a Poor Commissioner and a City Physician appointed by the Common Council and they shall hold office for the term of one year, and until their successors are appointed and qualified, the said term to commence on the first Monday of March, 1909, and every year thereafter; provided that the Poor Commissioner and City Physician now in office shall continue in office until such time as the Common Council shall make appointments.

Sec. 3. It shall be the duty of the Poor Commissioner to keep on record in his office the names of all persons receiving or having received charitable aid from the City, which record shall show the kind and quality of the aid, medical attendance, furnished to each applicant for relief. Said record shall be at all times open to the inspection of the Mayor, Common Council, City Controller or any committee or member of the Common Council.

Sec. 4. The said Poor Commissioner shall have power to purchase clothing, provisions, fuel and supplies for distribution among the poor under the advice and direction of the Poor Committee.

Sec. 5. It shall be the duty of the City Poor Commissioner to give to the paupers needing medical aid an order in writing therefor on the City Physician, whose duty it shall be to administer such medical aid when so directed. It shall be the duty of the City Physician to make personal investigation and keep proper records and report to the Common Council

when requested the condition as to health and the names of all paupers in hospitals, asylums, or house of refuge, receiving aid from the city of Ann Arbor.

Sec. 9. In cases of death of city paupers, on application to the Poor Commissioner, with satisfactory proof that the deceased left no means with which to pay funeral expenses, the body shall be buried at the expense of the city and the Poor Commissioner shall give an order on some undertaker of the city, directing him to prepare a grave, furnish a suitable coffin, place the body therein, place the same in the hearse, carriage or suitable vehicle, to be provided by such undertaker, to such cemetery as the order may direct, and there decently inter it; and for such purpose the Poor Commissioner shall have power to enter into a contract with such undertaker or undertakers as he may see fit, for the performance of this duty, and all claims arising from such burial shall be paid in the same manner as other claims and demands against the city. In no event shall the expense of burial exceed ten dollars.

Sec. 10. The Poor Commissioner shall have power, when deemed proper, to procure railroad tickets for paupers who may wish to leave permanently the city and county.

Sec. 11. If any person or persons shall bring to live within the limits of the city any person or persons, poor and unable to maintain themselves they shall forthwith or as soon as may be thereafter, transport the same to the place whence they were taken and shall provide all the means of comfort and subsistence for such paupers, if requested by them, or by any citizen until so transported. In case of refusal or neglect to provide for such paupers, the necessary means of comfort and subsistence, as herein required, and any member of the Common Council or Poor Commissioner, shall make such provision, the same shall be recovered by the city in an action for debt against any such person so refusing or neglecting. Any violation of this section shall be punished by a fine of not less than fifty dollars and costs; and in the imposition of any fine and costs, the court may make a further sentence, that in default of the payment thereof within a time to be fixed by such sentence, the offender may be imprisoned in the Detroit house of correction or in the county jail for the county of Washtenaw for any period of time not exceeding three months.

Sec. 12. In cases where the applicant for relief from the Poor Commissioner shall be considered able to labor, but for any satisfactory reason cannot procure employment, the Poor Commissioner may require such applicant to perform such labor in the city wood yard or elsewhere to such an extent as the said Poor Commissioner may deem a just compensation for the aid or support afforded to such applicant and to any such applicant refusing to perform any such labor the Poor Commissioner may refuse aid and support.

Sec. 13. The Poor Commissioner shall make monthly reports to the City Clerk, said reports to be first approved by the Poor Committee.

Sec. 14. It shall be the duty of the City

Physician when directed by the Poor Commissioner to attend any sick, disabled, or infirm person who may be a charge on the city, for any medicine required or surgical dressings necessary, the city Physician shall procure the same at any drug store or give an order to the patient for such medical supplies or any drug store in the city, and said drugs to be paid for by the city on approval by the City Physician.

Sec. 15. It shall be the duty of the City Physician to vaccinate without charge any indigent inhabitant of the City of Ann Arbor, not previously vaccinated within five years, who may apply for that purpose, and he shall also give certificates of vaccination to such persons as may have been vaccinated by him.

Sec. 16. The City Physician and the Poor Commissioner shall receive such compensation for their services as the Common Council may by resolution provide.

Sec. 17. No person shall be eligible to the office of the City Physician who has not received a diploma from a reputable medical college and is a licensed practitioner in this state and county and unless such person shall have had at least three years experience as a physician in the City of Ann Arbor.

Sec. 18. All complaints against the City Physician or Poor Commissioner shall be made to the Poor Committee who shall investigate the same, and if found necessary, report the result to the Common Council, with their opinion thereon. And the said City Physician and Poor Commissioner may be removed from office as are other officers as provided in the city charter.

Sec. 19. In case of the absence or inability, from any cause of the City Physician to attend to his duties he shall with the consent of the Poor Commissioner, provide at his own expense a competent physician to fill his place.

Sec. 20. In cases where a patient desires another physician and such other physician volunteers his services without expense to the city the City Physician may allow such patients to have the services of such physician, but the city shall, under no circumstances be responsible for such services of such physician or for any drugs or supplies and such patients shall at all times be under the supervision of the City Physician. The City Physician shall determine when each patient shall be discharged from such hospital and notify the superintendent or the proper officers thereof, whereupon the liability of the city shall cease.

Sec. 21. No person shall be treated at any hospital or by the City Physician or receive any aid or assistance from the Poor Commissioner who is not at the time of the application thereto an actual and bona fide resident of the City of Ann Arbor, for at least one year except upon the special order of the Common Council.

This ordinance shall take effect and be in force on and after ten days from legal publication.

Moved by Ald. Lutz, that three year clause in section 17 be changed to read one year in place of three years.

Amendment adopted as follows:

Ray, Goodyear, Smith, Abbott, Lutz, Pres. Walz—9.

Nays—Ald. Sweet, St. James, Pipp, Manwaring, Sherk—5.

Moved by Ald. Manwaring, that ordinance relative to city poor be referred to Ordinance Committee.

Adopted as follows:

Yeas—Ald. Stark, Georg, Hochrein, Murray, Sweet, St. James, Pipp, Manwaring, Sherk, Goodyear, Smith, Abbott, Lutz, Pres. Walz—14.

Nays—None.

Water Committee.

To the Honorable the Common Council.

Gentlemen—Pursuant to a resolution passed December 21st, 1908, authorizing the members of the Common Council to inspect the water plant of the Ann Arbor Water Company, we beg to report that the undersigned members of the Common Council did inspect the water plant of the Ann Arbor Water Company on December 28th, 1908, and as a result of this inspection, deem it proper to call your attention to the following facts:

1. That sometime during the past summer a large shaft was put in within a short distance of the Huron River at Station No. 1, and from this shaft a new iron pipe was connected with the Huron river. This new iron pipe was put in, so we were informed by the officials of the Ann Arbor Water Company, to provide for emergencies.

2. The different springs at Station No. 1, appeared to be well protected, except the spring known as the "gallery."

3. The springs at Station No. 2, appeared to be well protected and in a sanitary condition.

The new arrangements at Station No. 1, would indicate that the Ann Arbor Water Company, could, if so disposed, use large quantities of river water.

We protest against river water being furnished the inhabitants of the City of Ann Arbor for domestic purposes.

We recommend that the Water Committee of the Common Council make a thorough investigation of the conditions at Station No. 1, and report to the council at its earliest convenience.

Respectfully submitted,

William L. Waltz, W. H. Stark, Henry G. Pipp, E. B. Manwaring, I. L. Sherk, B. St. James, Conrad Georg, Jr.

On motion of Ald. St. James adopted as follows:

Yeas—Ald. Stark, Georg, Hochrein, Murray, Sweet, St. James, Pipp, Manwaring, Sherk, Goodyear, Smith, Abbott, Lutz, Pres. Walz—14.

Nays—None.

Moved by Ald. Goodyear that a copy of the report be sent to the Ann Arbor Water Company. Adopted.

Sanitary Committee.

To the Honorable the Common Council.

Gentlemen—The Sanitary Committee, to whom was referred the matter of garbage collection, report as follows:

We find that part of the garbage is being collected in three Studebaker wagons and the remainder in barrels and numerous other wagons which are not constructed as provided for in the contract. There are numerous persons collecting garbage for their own uses independently of the

contractor and without the permission of the board of health or any other city authority.

The Board of Health have allowed the garbage to be collected in wagons without covers or with wooden covers or even in barrels in violation of the garbage ordinance and contract.

Furthermore, we find that section 4 of the garbage ordinance, which provides that a certain kind of vessel shall be furnished by each household for the purpose of keeping garbage until it can be collected by the contractor or the people in his employ, is being systematically violated.

The committee recommends that the Common Council should authorize the Board of Health to enforce the garbage ordinance and contract in every particular. We also recommend that the sanitary policeman be given orders to arrest any person or persons found collecting garbage in barrels, or in any wagon, except the kind specified in the garbage ordinance, if found doing so after fifteen days from this date. We further recommend that the garbage ordinance be published in the daily paper and that a copy of this ordinance be furnished to every household in the city by the Board of Health.

Conrad Georg, Jr.,
I. L. Sherk.

Communication From Health Officer.
Office of the Health Officer.

Ann Arbor, Mich., Jan. 18th, 1909.
To the Honorable the Common Council of the City of Ann Arbor:

Gentlemen—It is the opinion of your Sanitary Committee that the garbage ordinance should be enforced to the letter, and that the terms of the contract between the city and the contractor should be strictly adhered to without giving any discretionary power to either contractor, property holder, or the health officer.

While I am willing to carry out the directions of your honorable body in the matter, I deem it my duty to first protest most vigorously against such an iron clad order, to point out the lack of wisdom in such a course, and to warn you as guardians of the public moneys of the certain ensuing expense in litigation, which is bound to be considerable.

My understanding of the intent of the ordinance is to provide means for the removal of all garbage within the city, with as little trouble and friction to property holders, and as little annoyance and inconvenience to the public as possible, at the same time to protect the best sanitary conditions in the city.—

In this, as in all other matters pertaining to the duties of my office, it has been my policy in so far as was possible and consistent with the public health to avoid litigation. This is because it has seemed to me that better results were obtained, with less trouble and annoyance and a diminished expenditure of the public money.

I wish to take up a few of the weak points in the ordinance which we now get along with without difficulty, but which if strictly enforced will lead to unending trouble:—

First—The University Hospital, the Cook house and large boarding houses having large amounts of garbage make individual agreements or contracts with men having proper wagons to remove their gar-

bage daily, and said contractors in consideration therefor remove ashes, tin cans and other waste, the disposal of which is not provided for by the city.

The city contractor has made no protest to me against this arrangement but should the city compel him to take it, ashes, cans, waste paper, etc., will be left to disfigure our alleys, etc.

Sec. 1. Provides that no dishwater or wash water shall go into the garbage cans. The least amount would prevent the contractor from gathering it.

Sec. 4. Provides that every occupant of a dwelling house, boarding house, hotel, restaurant and place of business of any kind having garbage to be disposed of, shall provide and at all times keep within such building, or on the lot on which such building is situated, suitable and sufficient vessel or vessels having a capacity not exceeding twenty gallons, with bails and handles and with close fitting covers thereto, for receiving and holding, without leakage or odors all the garbage that may be accumulated between the times of the collection thereof as the same shall be fixed by the common council. Such vessels shall be filled only to within four inches of the top, and shall be placed in such places as shall be readily accessible at all times for purpose of removing or emptying the same (upon the line of an alley whenever possible or convenient,) and where said vessels shall not be a public nuisance in any respect, or be placed in the limits of any street or alley.

Sec. 5. Provides that nothing but garbage shall be placed in such vessels.

Sec. 14. Any person guilty of any of the acts forbidden by this ordinance, or throwing poisonous substances or broken glass into garbage or failing to perform any of the duties imposed herein, or who shall violate any of the provisions of this ordinance or the rules of the board of health in reference to the same, shall, upon conviction, be fined in such sum as the court may determine, not exceeding one hundred dollars and in case of default in the payment of such fine the court may make a further sentence that the offender may be imprisoned in the county jail of Washtenaw county, or any jail or lockup of said city until such fine and costs be paid. Provided, such imprisonment shall not exceed thirty days.

From these brief extracts it is apparent that— First, all people having garbage to dispose of, must dispose of it through the contractor. Second they must provide proper cans. Third they can throw nothing in such cans but garbage. Fourth, these cans must never be filled above a line four inches from top. Fifth, all cans must be easily accessible. Sixth, A single violation of any of these provisions renders violators amenable to the law. Having a considerable experience with the situation, I am of the opinion that technically there is no one in Ann Arbor having garbage who has not violated at some time some of the provisions of this ordinance.

As to the complaints regarding the kind of wagons now in use, generally speaking, they are unfounded.

The contract is as follows: "It is specified by this board that all boxes in which garbage shall be conveyed from the city,

must be of galvanized iron or of other suitable metallic construction, and water tight. Such conveyance to be provided with a metal cover, and must remain closed at all times while within the limits of this city, except when receiving garbage."

The specification covers the old form of wagon.

Later the contract contains the following: "Said party of the second part agrees to purchase and use in disposing of garbage three new Studebaker Sanitary Garbage Wagons, and at the expiration of said contract the said wagons are to be delivered to and become the property of the city of Ann Arbor."

This however does not stipulate that no other wagons shall be used, nor can any such interpretation be read into the contract.

As a matter of fact, these three wagons are quite inadequate to the present needs of the city.

There is no doubt that leaking wagons, over full wagons, uncovered wagons, or barrels, etc., are contrary to the law, and I should never knowingly allow the use of any such. It would appear that any city official seeing such a gross violation should personally make complaint and appear as a witness against the offender. There is no question or difference of opinion here.

But gentlemen, if garbage accumulates, if it be collected in a barrel, or a can is over full, by the terms of the ordinance the contractor need not take it, and no one else is allowed to do so, and we are between the Devil and the deep sea. A situation presents itself where a choice of two evils is unavoidable.

As I understand it, there has been no complaint from the sanitary committee that the collection of garbage is not being attended to, or that the public health is in any way menaced.

The whole question of the disposal of garbage is a difficult one. It is more of an annoyance to me than to anyone else and I am satisfied that for the present conditions would be better left undisturbed. The problem is by no means solved, but it cannot be further improved upon under the present ordinance and contract.

There are complaints, just complaints, too, but less than formerly. There always will be complaints under any system.

I am fully in accord with the Sanitary Committee in their recommendation that copies of the Garbage Ordinance be printed and generally distributed.

Undoubtedly, a more general knowledge of the provisions of the ordinance is most desirable.

But a strict enforcement of all these provisions will be disastrous, and I maintain that the contractor should have discretionary power to remove any and all garbage, if he be willing to do so, while householders should be exempted from the effects of trivial violations, and the Board of Health should be allowed to use some judgment as to the wisdom of prosecuting all technical violations.

J. F. BREAKKEY, Health Officer.

Received and placed on file.

Ald. Lutz moved the adoption of Sanitary Committee's report.

Adopted as follows:

Yeas—Ald. Stark, Georg, Hochrein, Sweet, Manwaring, Sherk, Goodyear, Smith, Abbott, Lutz—10.

Nays—Ald. Murray, St. James, Pipp, Pres. Walz—4.

Cash in hands of Treasurer at close of business Dec. 31	\$89,431.74	\$5,714.76
---	-------------	------------

Bank certificate herewith \$3,716.98

\$89,431.74

Respectfully submitted
D. A. HAMMOND,
City Treasurer.

Ann Arbor, Mich., Jan. 3th, 1909.

This is to certify that there was deposited in this bank to the credit of D. A. Hammond, city treasurer, at the close of business on Dec. 31st, 1908, the sum of \$83,716.98.

Respectfully,
C. J. WALZ, Cashier

Reports from City Treasurer and City Clerk for month of December received, accepted and ordered on file.

Report of City Engineer for the Year Ending December 31st, 1908.

Hon. Board of Public Works, Wirt Cornwall, President.

Gentlemen:—I herewith submit a partial report of the work done in my department during the year ending December 31st, 1908. The duties devolving on this department are so diversified that no attempt is made to enumerate all the work in detail.

All work for which contracts have been made is now completed, except lateral sewer in lateral sewer district No. 23, which was contracted for in 1906. This is a small district and no payments have been made on the work as the contract has not been carried out. I recommend that this department be authorized to complete the work at the expense of the contractor and a settlement be made.

The recommendation made in my last report that the asphalt block pavements be coated with tar and alginate be carried out to the extent of 23,274 sq. yds., at an expense of two and one half cents per sq. yd. The results obtained are so satisfactory that I recommend that the remainder of the asphalt block pavements, amounting to 11,570 sq. yds., be treated in a similar manner and that the pavement coated in 1908 be again coated in 1909. I think two applications will last five years.

Much permanent good would be derived by paving some of our resident streets and I think the time has come when a satisfactory pavement can be put down for seventy five cents per sq. yd. We have been paying about \$2.20 per sq. yd. At a later date I shall submit specifications for this pavement and request an appropriation for laying a block for experimental purposes.

Our sanitary sewers have been extended to nearly all locations where there is an urgent demand for them. I think, however, that a six inch cast iron pipe should be laid on Murray avenue from Washington street south to the creek and thence west through private property to Eighth street to connect all dwellings that cannot be connected with the Washington street or the Liberty street sewers.

A total of 2,026 connections have been made with the sanitary sewers, of which 172 have been made during the past year.

If the public improvements are to keep pace with the growth of the city, we should have \$40,000 for taking care of the storm water. This sum would be sufficient for the extension of storm water sewers

in the eastern and southeastern parts of the city as well as the enlargement of the culverts along Allen's creek.

During the past season, the city furnished a man to lay the pipe on all sewer contract work and thereby saved the wages formerly paid for inspection and in addition secured a better job of pipe laying than formerly. I think this practice should be continued.

Statement showing detailed cost of contract work.

Entire number of bridges, iron and wooden.. .. .	8
Entire number of stone culverts..	29

Inventory

Three large plows, 2 hand saws, 2 cross cuts, 2 slip scrapers, 30 12" tile, 1 sprinkling wagon, 1 stone wagon, 2 common wagons, 3 carts, 2 dump wagons, 1 tar outfit, 4 two wheel scrapers, 2 mixing boards, 2 sandcreens, 3 tool boxes, 20 large tile 2', 4 mortar boxes, 4 culvert irons, 14" wide, 6 scoop shovels, 6 small shovels, 3 tamps, 4 iron crow bars, 2 five gallon oil cans, 3 hammers, 2 wrenches, 1 hatchet, 1 pounder, 1 grindstone, 1 drinking fountain, 6 loads old sidewalk stone, 3 pumps, 1 pair bobs, 1 stone crusher, 2 sweepers, 2 road scrapers, 1 two horse buggy, 1 hack, 4 thirty" tile, 6,000 brick, 13 snow plows, 1 team horses, 1 double harness, 2 blankets, 6 spindles for sweeper, 1 steam road machine, 4 picks, tools for filling broom for sweeper, 3 water rails, 1 outfit for building sidewalks, (rollers, creasers, and trowel), 1 pail of axle grease, 2 axles, 12 lanterns, 1 bolt cutter, bits and brace, 7 timbers 20' long 6x8, 3,000 ft. new oak plank, 4,000 ft. old oak

plank, 7,000' pine lumber, 1 post hole digger, 2 levels, 20 turn posts, bag carrier, 5 wheel barrows, iron for culvert on Mary street.

The Council has ordered a new cuivert on Murray avenue, and I would also recommend that a cement walk be constructed on both sides of the Michigan Central railroad bridge, as the old plank are getting decayed. I would also recommend that 120 sidewalk inlets be built of cement where the old plank are getting decayed. There will also be needed about 1200 loads of gravel on the streets, during the coming season; likewise a new cement mixer and one more new dump wagon will be required. As the D. U. R. have been raising their tracks without permission and in many cases I find that it will be necessary to relay the entire crosswalk, I would respectfully suggest that the Board of Public Works compel them to either put these walks in the same condition that they were or lower their tracks to the original grade.

Respectfully submitted,

J. WISNER, Street Commissioner.

Annual report from Board of Public Works, in form of reports from City Engineer and Street Commissioner, received, accepted and ordered on file.

The Council adjourned.

Ross Granger, City Clerk.
