Total City Funds\$10224.37 Ann Arbor, Mich., Feb. 2, 1920. To the Finance Committee of the Common Council, Gentlemen:

I have examined the foregoing accounts against the city of Ann Arbor and I hereby certify that they are correct to the best of my knowledge.

ISAAC G REYNOLDS,

City Clerk.

To the Honorable, the Common Council, Gentlemen:

Your finance committee has reviewed the foregoing report. We recommend that same be approved and that warrants be ordered drawn for the foregoing accounts.

GEO. LUTZ, JOHN MACGREGOR. O. R. MAYER,

Finance Committee. Ald. Mayer moved the adoption of report, which was adopted by following vote: Yeas, Ald. Sugden, Mayer, Prochnow, Handerson, Donnelly, Spathelf, MacGregor, Lutz, 8. Nays, none.

Ordinance Committee.

Ald. Mayer presented the following ordinance: "An ordinance to amend an ordinance entitled, 'An ordinance to regulate and control the driving of automobiles, motor vehicles and other vehicles within Nays, none the City of Ann Arbor'" passed August 21st, 19911; approved Augof Ann Arbor ordain: which was ed and ordered given its first reading by title, pass- minutes.

ed to and given its second reading and referred back to Ordinance committee by following vote: Yeas, Ald. Sugden, Mayer, Prochnow, Donnelly, Henderson. Spathelf, MacGregor, Lutz, 8. Nays, none.

Sewer Committee.

By Ald. Prochnow, Resolved, that the sewer assessment of Mrs. Barbara Zastrow in Sanitary sewer dist. No. 93 be fixed and determined at fifty dollars as her portion of cost of said sewer, the city of Ann Arbor to pay the remainder of cost of said sewer construction in conformity with an ordinance passed Jan. 5, 1920. Resolved, further, that the City Clerk do certify this resolution and order of assessment to the City Assessor.

Adopted by the following vote: Yeas, Ald. Sugden, Mayer, Prochnow, Henderson, Donnelly, Spathelf, MacGregor, Lutz, 8. Nays, none.

To the Honorable, the Common Council, Gentlemen: Your Police Committee has had the following matters under consideration and respectfully recommends:

1. That the regular police force of this city shall consist of the city marshal and thirteen patrolmen.

2. That beginning Feb. 1st, 1920, the compensation per month shall be as follows: City Marshal or acting marshal \$175.00; first year patrolmen each \$125.00; after one year's service \$137.50.

submitted, Respectfully Η. Ehnis, Geo. Lutz, Police commit-

Ald. Mayer moved the adoption of report, which was adopted by following vote: Yeas, Ald. Sugden, Mayer, Prochnow, Henderson, Donnelly, Spathelf, MacGregor, Lutz, 8.

Officers Report.

The annual report of the Board ust 23rd, 1911; amended November of Public Works, consisting of an-15th, 1915, amended Sept. 15, 1919. nual reports of City Engineer and The Common Council of the City Street Commissioner were presentprinted

January 21, 1920.

To the Board of Public Works, Ann Arbor, Mich.

Sirs: I submit the following report of work done under my direction, in your Engineer's Department, during the year ending December 31, 1919. Respectfully submitted,

GEO. H. SANDIENBURGH.

City Engineer.

PAVING

DISTRICT NO. 41. JACKSON AVENUE PAVEMENT: This is an asphaltic concrete pavement, extending from Huron street to the City

limits. Owing to the fact that this pavement connects the city pavement on Huron Street wih the County pavement extending out of the City, we were able to receive Federal Aid, at the rate of twenty thousand dollars (\$20,000) a mile, which gave us practically eight thousand dollars (\$8,000) from the Federal Government. The total cost of the pavement has not been reported by the State Highway Department. under whose direction this work was done.

This is an asphaltic concrete pavement, on a six inch concrete base. the aspha tic concrete top being two inches trick. The pavement was constructed by the W. B. Chambers Company, Grand Rapids, Michigan. DISTRICT NO. 42, THAYER STREET PAVEMENT: This pave-

ment extends from the north line of North University Avenue to the south line of East Huron Street. It is an asphaltic concrete pavement on a six inch concrete base, the asphaltic wearing surface being two inches thick. The cost of this pavement has been divided as follows:

| | Contract cost Engineering and contingencies | . 124.64 |
|----|---|-----------|
| | Inspection | |
| Th | Total cost | 1 7-9 1 |
| | City share | |
| | | \$7648 54 |

This pavement was constructed by the W. B. Chalmers Company,

Grand Rapids, Michigan.

DISTRICT NO. 38, BROADWAY PAVEMENT: This pavement extends from the Michigan Central overhead bridge, to the north line of Swift Street. It is a vitrified brick pavement on a six inch concrete base with a one-inch cement- sand cushion between the base and the brick surface. The cost of this pavement has been as follows:

| Contract cost | | | \$14445.84 |
|-----------------|-----------------|----------|------------|
| Engineering and | contingencies . | | 230.98 |
| Inspection | | . | 204.84 |
| | | | |

Total cost\$14881.66 The total cost of this pavement has been distributed as follows: City share\$8161.54 Property share 6720.12

\$14881.66

This pavement was constructed by W. J. Clancy, contractor. DISTRICT NO. 39, DETROIT STREET PAVEMENT: This pavement extends from the north line of Catherine Street to the Michigan Central overhead bridge. It is a vitrified brick pavement on a six-inch concrete foundation, with one inch sand cushion between the base and the brick wearing surface. Owing to cold weather, this pavement was not finished. It will be completed in the Spring of 1920. The cost of this pavement to date, has been as follows:

| Contract cost | \$25533.42 |
|-------------------------------|------------|
| Engineering and contingencies | 456.02 |
| Inspection | 354.76 |
| | |

Street to Fifth Avenue, and on Detroit Street from Fourth Avenue to Catherine Street. It is a vitrified brick pavement on a six inch concrete foundation, with a one inch sand cushion between the base and the brick wearing surface. Owing to cold weather, this pavement was not finished, but will be completed in the Spring of 1920. The cost of the pavement to date has been as follows:

Inspection

MENT: This pavement extends from North University Avenue to Hill Street. It is an asphaltic concrete pavement with a two inch asphaltic concrete wearing surface and a six inch concrete base. Owing to the scarcity of labor, it was impossible to finish this contract this year. This pavement extends from North University Avenue to Hill The cost to date, has been as follows:

> Contract cost\$15699.78 Engineering and contingencies 291.31 Inspection 150.75

Total cost\$16141.84

A complete report will be made of this contract in the annual report of 1920. The pavement was constructed by Letchfield Stewart, contractors.

DISTRICT NO. 44, SOUTH UNIVERSITY AVENUE PAVEMENT: This pavement extends from State Street to Oxford Road. It is an asphaltic concrete pavement on a six inch concrete foundation, the asphaltic wearing surface being two inches in thickness. This contract was not completed owing to the scarcity of labor and cold weather coming on early in the season. The concrete base is complete, but the asphaltic concrete wearing surface was completed to Washtenaw Avenue, leaving a space between Washtenaw Avenue and Oxford Road to be surfaced during the season of 1920. The cost of this pavement has been as follows:

> Contract cost \$30041.17 Engineering and contingencies 924.14 Inspection

Total cost\$31393.82

This pavement was also constructed by Letchfield and Stewart,

PACKARD STREET FAVEMENT: The plans and specifications were prepared for this pavement, but owing to the fact that there was no storm sewer on the street and it was impossible to construct one until the main storm sewer was constructed on Granger Avenue, the construction of the pavement was postponed. The cost of preparig

plans and specifications has been \$28.27.

EAST HURON STREET PAVEMENT: Due to some final repairs necessary on this pavement, the final estimate was not made with J. C. Stewart, the contractor, at the time of the completion of the pavement. The total amount due Mr. Stewart on this contract was \$5202.41. Of this amount, he was paid \$4103.13 during the year of 1917, leaving a balance of \$1099.28 due Mr. Stewart. After deducting bills of the City against Mr. Stewart amounting to \$1092.92, there was a balance due him of \$6.36. This amount has been paid.
GRADING, OPENING AND MAINTAINING STREETS

STREET LINES: The total cont for all ork done in connection with running profiles, establishing grader, setting stakes and the care of street monuments, has been \$276.54.

OILING ROADWAYS: This year more streets were oiled than ever before with apparently very good success. As a dust preventive, the oil was very successful. The total amount spent by this department in preparing estimates, etc., was \$57.65.

SANITARY SEWERS

DISTRICT NO. 88, JACKSON AVENUE SANITARY SEWER:

This is an eight inch vitrifed pipe sewer, extending from Huron Street to the City limits. The cost has been as follows:

| Contract cos | st | | | \$2 | 2267.52 |
|--------------|-----|--------|---------|---------|---------|
| Engineering | and | contin | gencies | | 40.66 |
| Inspection | | | | | 93.79 |

Total\$2401.97

tors.

This total cost has been distributed as follows: City share ..., \$ 143.00 Property share 2258.97

Total cost\$2401.97 This sewer was constructed by William Eddy & Son, contractors.

DISTRICT NO. 89, JONES AND MILL STREET SANITARY SEW-ER: This is an eight inch vitrified pipe sewer, extending from Broadway to Mill Street on Jones Street, and from Jones Street, four hundred and fifty feet (450) north, on Mill Street. Owing to cold weather, this sewer was not completed, but will be finished in the Spring of 1920 The cost to date, has been as follows:

Contract cost\$952.38 Engineering and contingencies 21.00

Total cost\$992.90 This sewer is being constructed by William Eddy & Son contract-

DISTRICT NO. 90, BERKSHIRE ROAD AND ORCHARD STREET DISTRICT NO. 91, EAST HOOVER AVENUE; DISTRICT NO. 92, ED-WARD STREET: Contracts for the construction for these sewers were let to William Eddy & Son, July 21 1919, but owing to the scarcity of labor and difficulties in getting material, the work was not started this year. They will be completed in the Spring of 1920. The cost of preparing the plans and specifications, etc., to date has been as follows:

> Dist. No. Berkshire Road and Orchard St\$18.08 90 East Hoover Avenue 3.25 91. 92. Edward Street

Total\$28.59
DISTRICT NO. 93, SEVENTH STREET SANITARY SEWER: This is an eight inch vitrified pipe sewer, extending from Washington Street, north one hundred forty-five feet (145). The cost of this sewer has been as follows:

Contract cost\$285.37

Sheehan Addition on State Street, south to Boulevard Drive then west on Boulevard Drive to a point opposite the Cook Spring Company, about one hundred feet west of the Ann Arbor Railroad. Owing to a twenty inch water main being at the same elevation as the sanitary sewer on State Street opposite Boulevard Drive, it was necessary to go north on State Street in order to get under the 20 inch watermain, and connect with the deeper sewer at that point. The Board of Public Works advertised for bids, but no bids being received, the Board of Public Works obtained permission from the Common Council to proceed with the work by City force account. The cost of the work to January 1, 1920, has been \$851.60.

STORM AND SANITARY SEWER SURVEY: For the past two or three years, it has been very evident that in the near future, it would be necessary to build a new main sanitary sewer. In the Spring when heavy rains are prevalent, the main storm sewer is over-taxed and flows under head, thusf orcing the sewage back into cellars. For the last two years, cellars have been flooded in this way for two or three days, before the water went down and the cellars were relieved. This is due to storm water getting into the sanitary sewers. Owing to this fact, five thousand dollars (\$5,000) was raised in the budget to have a complete storm sewer survey of the City made. A contract was entered into with Hoad and Decker, Consulting Engineers, whereby they are to furnish a complete set of plans and profiles for a system of storm sewers for the City of Ann Arbor at a contract cost of five thousand dollars (\$5,000). At the time the money was raised for a storm sewer survey of the city, it was planned to raise an additional five thousand dollars (\$5,000) in 1920 for a sanitary sewer survey. In October, this year, Mr. Hoad of the firm of Hoad and Decker, advised the Council that inasmuch as they were going to have a sanitary sewer survey made, that it would be better to have the two surveys carried on simultaneously so that they could be planned more economically, than if each were made at a different time. Another contract was entered into with Hoad and Decker to furnish a complete set of plans and profiles for enlarging and redesigning the present sanitary sewer system, at a cost of forty-two hundred dollars (\$4200). The amount paid to Hoad and Decker to January, 1920, on this contract for furnishing plans and profiles for storm sewer has been twenty-five hundred dollars (\$2500).

SANITARY SEWER MAINTENANCE: The care and maintenance of existing sanitary sewers during the year of 1919, has cost \$1264.01.

TAPPING SANITARY SEWERS. According to your ruling made July, 1914, all tapping of sanitary sewers has been done by a City employe. The cost of such work during the year of 1919 has been \$7.70.

ploye. The cost of such work during the year of 1919 has been \$7.70.

PAYMENTS OF FIVE PERCENT RETAINED: The following is a tabulated list of the amounts paid to the contractors during the year 1919 on work completed in 1918. The amount is five percent of the contract cost which was retained for one year.

Dist. No. Location Paid to Contractor Contractor 86 West Hoover Avenue.......\$12.63 J. C. Stewart 87 Ninth Street, from Huron Street west 14.63 Wm. Eddy & Son
