#### Ordinance Committee

Ald. Haarer presented an ordinance entitled, "An ordinance to regulate the use of Lands for purposes of dumping and placing rubbish, ashes and debris thereon and providing penalties for violation of the provisions thereof. The Common Council of the City of Ann Arbor ordain:" which was given its first reading by title, passed to and given its second reading and referred to ordinance committee by following vote: Yeas, Ald. Slauson, Jocelyn, Haar-

er, Graf, Henderson, Lucas, Donnelly, Ware, White, Freeman, Gram, Norris, Pres. Sugden, 13. Nays, none.

Ald. Freeman presented the following ordinance which was given its third reading:

An ordinance to regulate and provide for the grading, constructing, building, repairing, renewing and rebuilding of sidewalks and providing for the cost, collection and assessment thereof when built, repaired or rebuilt by the city, and to repeal any and all ordinances conflicting therewith.

The Common Council of the City of Ann Arbor ordain:

Sec. 1. All sidewalks hereafter graded, constructed, repaired or renewed in said city shall conform to the grade lines established by the Common Council and to such specifications in regard to width, materials and mode of construction as shall be approved by the Common Council, and such specifications shall be of the same force and effect as though incorporated at length in this ordinance.

Sec. 2. All sidewalks shall hereafter be constructed of Portland cement concrete and of no other material. Provided, however, that the Common Council shall have power and authority in its discretion to authorize the repair of tar or asphalt sidewalks or those of other material as ordered and required by the Common Council and all work and all materials shall be in all things first class and satisfactory to the Board of Public Works.

Sec. 3. Whenever the Common Council shall order any sidewalk to be constructed, repaired or renewed, it shall be the duty of the Board of Public Works to cause any filling or excavation that may be necessary in order to bring the said sidewalk to the prescribed grade to be made at the expense of the city: Provided that the said board may, in its discretion, build a trestle instead of an embankment for raising a sidewalk to the required elevation; and, provided, that the foregoing provision shall not be construed to charge the city with the expense of removing old sidewalks or of filling excavations resulting from such removal. And it shall further be the duty of the said Board of Public Works to cause all side-

walks in process of construction, repair or renewal in said city to be inspected from time to time by some competent person under the direction of the Board of Public Works to the end that the requirements of this ordinance may be fully complied with or that complaint may be made promptly for any violation thereof. It shall be the duty of the inspector to inspect the sidewalks of this city from time to time and report promptly to the Board of Public Works all sidewalks requiring to be repaired or renewed in said city. The Board of Public Works is hereby authorized and required to cause such temporary repairs to be made in sidewalks, at the expense of the city, as may be immediately necessary for the safety of pedestrians and all bills for that purpose when duly certified to by the Board of Public Works shall be allowed by the Common Council and paid out of the sidewalk building fund.

Sec. 4.—No sidewalk shall hereafter be graded, constructed, repaired or renewed within the limits of this city, by the owner, occupant or agent of the lot, building or premises adjacent to and abutting upon the said sidewalk, unless permit shall have been obtained from the city clerk previous thereto and grade shall have been obtained from the city engineer. In application for grade the applicant shall set forth the location of said sidewalk by street and number of premises adjacent thereto or by other sufficient designation, the name of the person intending to perform the work of construction, repair or renewal, and the date upon which the said work is to be begun, and shall be signed by the said owner, occupant or agent. But no failure on the part of any officer of this city, or the Common Council or Board of Public Works to act promptly upon any information contained in said notice, shall operate to relieve any person filing the same from any penalties to which he might otherwise render himself liable for a violation of any of the provisions of this ordinance with reference to width, position, materials or mode of construction of said sidewalk.

Sec. 5. All sidewalks shall be laid parallel to the adjacent prop-

erty line and distant therefrom as follows: The inner line of all sidewalks of a greater width than six feet shall coincide with said property line; the center line of all other sidewalks shall be distant four feet from said property line. The common Council may by special resolution except any sidewalk from the above regulation. All sidewalks hereafter built shall be in accordance with the specifications approved by the common council of the city of Ann Arbor and every contractor building sidewalks shall stamp at each end of the walk constructed by him, his name and the year in which the said walk was constructed, such stamp to be in manner and form prescribed by the Board of Public Works.

Sec. 6. Whenever the common council shall order any sidewalk to be constructed, rebuilt, repaired or renewed, it shall be the duty of the city clerk to cause a notice of the same to be published in a newspaper of general circulation in said city in at least two issues thereof and on successive publishing days, directed to the owner of the parcel of land, without name or them, in front of or adjacent to which said sidewalk is to be constructed, rebuilt, repaired or renewed, requiring such owner to construct, rebuild, repair or renew, as the case may be, such sidewalk as is contemplated by such resolution, within ten days from the date of publication of the notice, unless a different time shall be specified in a resolution of the council. It shall be the duty of the said owner, agent or occupant within the time so specified to construct said sidewalk in the time prescribed in said notice and of materials and in manner required by this ordinance and the specifications of the common council. If said owner, agent or occupant shall fail to perform said duty and shall fail to construct or repair said sidewalk within the time specified by said notice and of materials prescribed in this ordinance, it shall be the duty of the said Board of Public Works to proceed at once upon the expiration of the time limited in the said notice, to construct, repair or renew the said sidewalk of the material and in the manner herein required, and the

expense thereof with ten per cent added thereto shall be assessed upon and become a lien against the said adjacent and abutting lot, building or premises.

Sec. 7.—All sidewalks in said city shall be kept and maintained in good order and repair by the owner or occupant of the land, building or premises adjacent to and abutting upon the same; and if any owner or occupant shall neglect to keep and maintain the sidewalk along the front, rear or side of the land, building or premises, owned or occupied by him or her, in good repair and safe for the use of the public, the said owner or occupant shall be liable to the said city for any damages recovered against said city sustained by any person by reason of said sidewalk being unsafe and out of repair.

Sec. 8. The common council shall provide and direct that the cost and expense of the building, construction and repair of all such sidewalks so ordered graded, constructed or repaired by the Board of Public Works shall be audited and paid from the sidewalk building fund, and all such sums of money, when so paid, with ten per cent thereon added thereto, shall be and become a lien on and against the lot or parcel of land in front of or adjacent to which the sidewalk shall have been graded, constructed, or repaired, which lien shall continue until the said money so paid shall be repaid into or otherwise received by the city treasurer, and when so received the same shall be credited to the sidewalk building fund.

Sec. 9.—The Board of Public Works shall keep and cause to be entered in a book provided for that purpose, memoranda with dates and particulars of all such notices so published as aforesaid, to grade, construct, build, repair or renew any such sidewalks; and shall also keep a just and true account of all moneys paid, laid out and expended for the grading, construction or repair of any such sidewalks, as well as a particular description of the lands, tenements and premises in front of or adjacent to which any such sidewalks shall have been graded, constructed or repaired, and on or before the third Monday

of October in each and every year shall report the said expenditures in writing to the common council, so arranged that there will appear from such report the particular sum of money which shall have been expended in the grading, construction or repair of each particular sidewalk in front of or adjacent to each particular description of lands, tenements or premises.

Sec. 10. Whenever any such certificate shall be received by the common council, the common council shall at the same or at the next meeting thereof appoint and fix a day not later than the third Monday of November next following when they will meet as a board of review to pass upon and determine the accuracy of the said certificate, and the said common council shall give notice to all persons named in the said certificate of the time when and the place where such meeting will be held at which meeting, after hearing every person, in person or by attorney, who shall desire to be heard, the said council as such board of review, shall without adjournment proceed to determine the truth of such certificate, and shall have power and authority to change any sum of money stated therein, to correct any description of land or premises mentioned in the same, and to take any other action to the end that the said certificate may in all things be made just and true, which determination shall be in all things final and conclusive. After such determination said board shall by resolution certify its determination to the common council, and the common council shall at the same meeting or at any adjourned session cause the money so found by the said council as such board of review to be due and owing for the grading, construction or repairing of any such sidewalk or sidewalks, to be assessed on and against the owner of and against the land, lot or premises in front of or adjacent to which any such sidewalk or sidewalks shall have been graded, constructed or repaired by the said Board of Public Works and shall certify such determination and order of assessment to the city assessor. The said city assessor shall on receipt thereof proceed to

set down in and assess upon the general assessment roll of the said city for the then current year the sum or sums of money so certified against each particular lot or parcel of land so in said order of assessment mentioned, against which the said sums of money are respectively charged, by adding such sums of money to the general city tax, and said sums of money so set down in said assessment roll shall be and become a valid debt, demand and tax against the owner of the lot, land and premises and a valid tax against the lot, land and premises in front of or adjacent to which any such sidewalk may have been graded, constructed or repaired by the said board of public works, and shall be collected in the same manner in every particular as the tax to which it is thus added and as the other taxes set down in and spread upon the said assessment roll are collected.

Sec. 11. In case the tax assessed on any such lot, land or premises charged with the expense of grading, constructing or repairing any sidewalk as provided by this ordinance shall not be paid or collected and any such lot or lands and premises shall be returned for non-payment of such tax by the city treasurer, such lots or lands and premises, unless sooner redeemed, shall be sold for such tax by the county treasurer at the annual sale of lands for delinquent taxes, and in the same manner as for other taxes, as provided by law.

Sec. 12. Notice of the meeting of the Common Council as a board of review shall be given by publication in the official newspaper or newspapers in the said city, and one publication in such newspaper or newspapers shall be deemed sufficient, and the said board of review shall have authority to proceed on filing with the city clerk due proof by affidavit of such publication

Sec. 13.—It shall be the duty of every owner, agent or occupant of any lot or premises included in the notice published as herein provided by the city clerk, to build, construct or repair any sidewalk or sidewalks to promptly comply with such notice and to grade, construct or repair any such sidewalk as ordered and in case any owner, agent or occupant shall neglect to

so grade, build, construct or repair any such sidewalk or sidewalks within the time prescribed in the notice so given and in case the city by any suit, action or other proceedings shall be compelled to pay damage for injuries to any person or property on account of such neglect, such owner, agent or occupant in addition to all other fines or liabilities provided by this ordinance, shall be liable to the city for the amount of all damages and costs so paid and the same may be collected, if necessary, in an action of assumpsit in the proper court.

Sec. 14. Any owner, agent or occupant of any lot or any other person grading, constructing, reconstructing, renewing or repairing any sidewalk contrary to the provisions of this ordinance, or of material other than hereinbefore prescribed, shall on conviction thereof, be punished by a fine not to exceed \$100.00 and the costs of prosecution; and in the imposition of any such fine and costs the court may make the further sentence that the offender be imprisoned in the common jail of the County of Washenaw until the payment thereof; Provided, That the term of any such imprisonment shall not exceed a period of thirty (30) days.

Sec. 15. All ordinances or parts of ordinances conflicting with any provisions of this ordinance are hereby repealed. It being intended hereby to repeal an ordinance relative to sidewalks passed March 6, 1893, approved March 11, 1893, amended Feb. 17, 1896; amended July 18, 1898; amended April 16, 1900; amended September 16, 1901; amended May 18, 1903; amended Oct. 6, 1913; amended May 1, 1922.

Sec. 16. This ordinance shall take effect and be in force on and after ten days from legal publication thereof.

The Chair put the question, "Shall this ordinance pass?"

#### Special Committee Report

To the Honorable, the Common Council,

Gentlemen:

Your special committee, to whom was referred the matter of the Crest Ave. dumping grounds respectfully submits the following report:

We find that organic matter is being deposited.

We also find that owing to the fire which exists in the dump, the smoke gases and steam caused by the fire and emitting from said dump, are such as to be decidedly obnoxious and injurious to the health and comfort of the surrounding neighborhood, thereby creating a nuisance and a menace to health.

Owing to the above existing conditions it is the opinion of this committee, that the entire situation can and should be controlled by the Health Officer, who, by power vested in him by the State of Michigan and the charter of the City of Ann Arbor, has absolute authority in all matters concerning public health.

We respectfully recommend the following rules:—

1. All dumping shall be done within the hours specified by the Health Officer.

2. All inflammable materials shall be separated by the hauler, and shall be placed in spot designated by the caretaker, to be burned by the caretaker at his discretion; the balance of the rubbish and debris to be placed by the hauler, wherever the caretaker shall designate.

We further recommend, that a gate be placed at the entrance; also that notice of the hours allowing dumping be posted thereat, with notice of penalty said notice to be signed by the Health Officer.

In making the above report, the committee respectfully recommends that the Health Officer make whatever further rules he shall consider necessary for the maintenance of a well regulated dump, and shall immediately demand a strict compliance of the same.

The Health Officer is hereby authorized to demand from Police and Fire Departments any assistance he deems necessary for the regulation and enforcement of rules for public dumping grounds.

Respectfully submitted,
