Re Refunding Bonds

We have examined proposed resolution for the issue of \$180,000 Water Refunding Bonds and find one hundred and thirty-two feet in it in proper legal form. We notice lepth adjacent to the Class "C" that it calls for bonds bearing 4 property at the Northwest corner 1-4 per cent interest. While we think it will be possible to sell Second-The piece of property 4 1-4 per cent bonds, there is pos-198 ft. frontage on the south side sibility of a change in market con-of Catherine St. by 134 ft. in ditions and would suggest that the depth, consisting of three 66 ft. resolution provide for interest not lots, adjacent on the west to the to exceed 4 1-2 per cent. This will cent bonds if the market is favorable and will avoid the necessity of re-advertising if conditions should be less favorable.

Yours very truly,
