(From Board)

Moved by Mr. Atwell, that after conference with County authorities and after listening to representatives of paving district on Dexter Ave., the Board of Public Works requests permission of Common Council to advertise for bids for 1 1-2-1 1-2 sheet asphalt on 6" concrete base in place of 1 1-2-1 1-2 sheet asphalt on Vibrolithic base, as per City Engineer's preliminary estimate of March 9.

(Council action)

Referred to Street Committee.

Ann Arbor, Mich., April 5, 1927.

To the Honorable, the Common Council,

Gentlemen:

In case that the curb market shall be located the coming season,

on Fourth Avenue and Ann Street along the court house property, we respectfully request that only the west side of Fourth Avenue and the south side of Ann Street be used for such purpose and that parking be prohibited on the opposite side of said Streets during the market hours as it would be impossible for the fire department to enter these streets under conditions which prevailed last season.

Respectfully submitted,
Sid W. Millard, Phil. Schumacher,
Erwin E. Schmid. Board of Fire Commissioners.

Referred to Street Committee.
To the Honorable, the Common Council,
Gentlemen:

Your Board of Police Commissioners requests permission to trade in 1924 and 1925 motorcycles for new model and \$140.00.

Respectfully submitted,
Jos. L. Arnet, Geo. W. Kyer, Frank B. Devine, Board of Police Commissioners.

Moved by Ald. Lucas, that request be granted.

Adopted by following vote: Yeas, Ald. Slauson, Jocelyn. Maulbetsch, Graf, Sweet, Lucas, Dwyer, Hammial, Moore, Bursley, Freeman, Lutz, Pres. Woodbury, 13. Nays, none.

April 5, 1927.

To the Honorable, the Common Council,

Ann Arbor, Michigan.

Sidewalk Committee Report

To the Honorable, the Common Council,

Gentlemen:

Your Sidewalk Committee respectfully recommends that the following sidewalks be ordered built and the following resolution adopted:

Resolved, That the grading and construction of the sidewalks hereinafter mentioned is deemed and declared to be necessary public improvements.

Therefore, It is hereby ordered that Portland Cement concrete sidewalks be graded, built and constructed in the City of Ann Arbor on and along the following property; width of walk to be five feet unless otherwise stated:

Abbot Avenue — South Side, driveway at No. 1603 and from Virginia Ave. westward to end of street except No. 1705.

North Side, from Virginia Ave. to west end of street, except Nos. 1706 and 1814.

Lot 104 and the E 90 ft. of lot 163, Killins Heights Add.

Lots 19 to 25 both inclusive McMullen's Subdivision of lot 1, Assessor's Plat No. 4.

West Hoover Avenue — South Side. Lot next east of No. 201.

Lot 1, Wilder's Add.

Miner Street—On both sides of Miner Street from Pearl Street to the north line of Fred Heusel's property.

The W 100 ft. of lots 5, 6 and 7, Hiscock's Improved Plat.

Lots 89, 96, 97, 104, 105, 112, 113, 120 and 121, James B. Gott's 2nd Add.

Mt. Pleasant Place—East Side from West Madison St. southward for five lots except No. 705.

Lots 140, 141, 142 and 146, Eber White 1st Add.

Sidewalk Committee.

Ald. Slauson moved the adoption of report, which was adopted by following vote: Yeas, Ald. Slauson, Jocelyn, Maulbetsch, Graf, Sweet, Lucas, Dwyer, Hammial, Moore, Bursley, Freeman, Lutz, Pres. Woodbury, 13. Nays, none.

Ald. Slauson informed Council that a petition, relative sidewalk which was referred to his committee, contained request to build curb and gutter. Referred to Street Committee. He also stated that he had been informed that dirt had settled under a sidewalk in business district and matter was referred to City Engineer.

Railway Committee

Ald. Dwyer announced that matters referred to his committee had been taken care of, except matter of proposed bridge over Michigan Central tracks and the petition of C. A. Sauer Company to lay side-track across Madison St.

Lighting Committee

Ald. Jocelyn made oral report that he expected the University would install boulevard lights around the hospital, so it would not be advisable for city to grant the petition for two lights.

Park and Sanitary Committee

Moved by Ald. Hammial, that the request of the Board of Park Commissioners to purchase a certain parcel of land from Wm. J. Garvin and Nellie G. Walborn for \$500.00 and request to exchange certain lands with James K and Marie Palmer be granted; and the Mayor and City Clerk are hereby authorized to draw warrant in favor of Wm. J. Garvin and Nellie G. Walborn for \$500.00 when deed and abstract are approved by City Attorney and also to sign deed to James K. and Marie Palmer conveying the certain parcel of land in exchange when deed and abstract are approved by City Attorney for parcel of land received in exchange.

Adopted by following vote: Yeas, Ald. Slauson, Jocelyn, Maulbetsch, Graf, Sweet, Lucas, Dwyer, Hammial, Moore, Bursley, Freeman, Lutz, Pres. Woodbury, 13. Nays, none.

Report of Budget and Finance Committee

To the Honorable, the Common Council,
Gentlemen:

Your Budget and Finance Committees received bids April 7, 1927, for printing 1000 copies of plumbing code as follows:

The Craft Typeshop.....	\$225.00
Sid W. Millard	164.80
The Mayer-Schairer Co....	161.32
Davis & Ohlinger	136.90

We recommend that the lowest bidder, Davis & Ohlinger, be awarded the printing.

Respectfully submitted,

E. E. Lucas, Geo. Lutz, Jr., H. M. Slauson, C. C. Freeman, S. S. Hammial. Budget & Finance Committees.

Ald. Lucas moved the adoption of report which was adopted by following vote: Yeas, Ald. Slauson, Jocelyn, Maulbetsch, Graf, Sweet,

Lucas, Dwyer, Hammial, Moore, Bursley, Freeman, Lutz, Pres. Woodbury, 13. Nays, none.

Traffic Committee Report

To the Honorable, the Common Council,

Gentlemen:

Your Traffic committee respectfully recommends:

1. That the petition of C. J. Hutzel for "no-parking" space on the East Liberty Street side of his store on South Main Street be granted and fifteen feet be used for said purpose.

2. That the petition of Michigan Biological Supply Co. for "no-parking" space in front of their place of business at 329-331 Second Street be granted and thirty feet be used for said purpose.

Respectfully submitted,

C. C. Freeman, B. H. Graf, C. J. Sweet, Traffic Committee.

City Officers

Annual Report of Water Works Dept.

To the Honorable, the Mayor and Common Council of the City of Ann Arbor, Michigan:

Gentlemen—The Board of Water Commissioners have the honor to present herewith the thirteenth Annual Report of the Water Works Department covering the fiscal year from Feb. 1, 1926, to Jan. 31, 1927. The past year has been in general a very satisfactory year.

At the close of the last fiscal year a water works expert was employed by your honorable body at our request to make a survey and report of the requirements of the Water Works Department, pertaining principally to the future of the water supply. Maury & Gordon, Consulting Engineers of Chicago, Illinois, were engaged and their report was filed with your honorable body during the year.

The law suit brought about by farmers near the Steere Farm Pumping Station was satisfactorily settled by the decision of the Supreme Court. There are two very important problems now before us. First, an adequate and satisfactory

water supply; Second, additions to the distribution system to improve the pressure and fire protection and to provide feeders for future extensions. These will be discussed under proper headings in the following:

Law Suits:

The law suit against the City brought by Carrie Davison and others which included a majority of the property owners joining the city pumping station property at the Steere Farm, was decided by the Circuit Court last year that there was no cause for action and the injunction asked for which was to close down the pumping station was denied. The State Supreme Court confirmed this decision. This is the first time since the operation of the Steere Farm station first began that we have not worked under a cloud of law suits.

Water Supply:

During the past year the water supply was obtained from the No. 3 (Steere Farm) and No. 1 (River) Pumping Stations. The No. 3, or Steere Farm Pumping Station furnished 93%, and the No. 1, or River Pumping Station furnished 7% of the total water used in the city. About 2% of the water furnished by the No. 1 Pumping Station was from the Huron River and about 5% from artesian wells. The water supply from the No. 3 or Steere Farm Pumping Station is entirely dependent upon rainfall. Last year the rainfall intensity and distribution was such as to give a sufficient supply from the artesian wells, with the exception of the month of July when the extreme hot and dry weather increased the consumption to such an extent that it was necessary to supply the deficiency from the Huron River.

The water supply from the artesian wells requires no treatment for harmful bacteria. The Huron River supply is treated with liquid chlorine at the pumping station for the elimination of harmful bacteria. Daily samples of water are tested by the City Chemist and the treatment of the river water when used is adjusted to maintain the City water free from harmful bacteria. The quantity of water pumped during the last year increased 19.5% over the previous year. The

average daily pumpage amounts to 4,540,000 gallons per day. The amount of water pumped has increased continually since 1921, when the meters were installed. This continual increase in the amount of water pumped indicates that a new water supply which is safe for domestic use at all times of the year will be required within the next few years, and immediate steps should be taken in regard to construction of such a water supply. While the river water is clear the present sterilized river supply which augments the artesian water supply is fairly satisfactory, but in the spring of the year and after heavy rains the river water is very turbid and contains a very large quantity of mud and sediment. In the past few years it has been possible to only supply river water when it was clear, but with the continual increase of water consumption we will soon be in a position when we will not be able to select the time when river water is pumped, so that if a filtration plant is not built to remove this mud and sediment it will be necessary to pump this water into the mains. On Sept. 3, 1926, we sent a communication to your honorable body which incorporated the following:

That the Steere Farm, or No. 3 Pumping Station, be operated to the maximum capacity of the wells.

That to augment the Steere Farm supply a filtration plant of 6 million gallons per day capacity be constructed at No. 1 Pumping Station to supply filtered river water which will be safe and palatable.

It is our opinion that this is a sure, safe and practical way to solve our water supply problem, and in fact is the only real solution that takes into account future growth of the City.

There are a number of springs within the City Limits and some a short distance outside of the city which supply small quantities of water and are subject to the same variation in flow as other ground water supplies depending on the amount of rainfall. As the maximum demand for water in the city is in the dry periods when these springs give their minimum flow they do not yield sufficient quanti-

ties of water to consider them as an addition to the permanent water supply. These springs are in thickly inhabited or will soon be thickly inhabited districts which would make the water for domestic use unsafe without chemical treatment.

Pumping Plants:

The No. 1 Pumping Station is located near Barton Dam about one-half mile outside the Northwest corner of the City. This station has installed two electric motor driven centrifugal pumps, one of 5 million gallons per day capacity and one of 7 million gallons per day capacity, and one steam driven pumping engine of 2,500,000 gallons per day capacity.

The No. 3 Pumping Station located about three miles South of the city on State Street at the so-called Steere Farm, has installed two electric motor driven centrifugal pumps of 3,700,000 gallons per day capacity each. The total daily pumping capacity of the two city plants is therefore 21,900,000 gallons per day, thus providing adequate reserve pumping capacity in each pumping plant.

Additional water supply will eventually require additional pumping equipment.

Distribution System:

During the year there were 11144 feet of new main laid, which is only one-third of the amount laid the previous year. There were 9 new fire hydrants added. All water mains were laid by the Water Works Department. The high level districts in the Southeast and west sides of the city continue to have poor pressure during the periods of maximum demand. This condition will continue to grow worse and can be remedied by feeder trunk line mains. The City has been expanding so rapidly that additional trunk line mains are now necessary to continue to give good service and fire protection.

The reservoir is small and open. It should be enlarged so as to hold more water, should be raised to increase the pressure and should be covered. This can only be done by completely rebuilding the present reservoir or the construction of a new one.

supplies water to the inhabitants of the corporate limits of the city of Ann Arbor. From statistics compiled by the Ann Arbor Times News the present population is 27,712 inhabitants and in 1920 the census gave 19,516, a gain of 42% in seven years. During this period the gain in domestic water services was 65.8% and a gain of 74% in the amount of water pumped. These figures give some idea of the problems confronting this Department.

Meters:

All customers taking water from the Water Works System are metered. The water used for the flush tanks of the sewer system, street washing, flushing of water mains and for fire fighting purposes is not metered. During the past year there were 261 new meters added and 305 new taps made.

Financial:

The net revenues of the water Works Department during the past fiscal year being the gross revenue from the sale of water less discounts from refunds amounts to \$175,705.50 as compared with \$158,528.48 of last year, or an increase of 10.8%; while the operating expenses of the Department amounted to \$53,710.53 compared with \$53,695.25, an actual increase of less than 1%.

The revenues of the Water Works Department have been sufficient to pay all operating and maintenance expenses, the interest on outstanding bonds, the principal of the bonds that fell due, a sinking fund for the retirement of future bonds as they became due, and a surplus sufficient for current extensions to the water distribution system.

Recommendations:

After a careful study of the water question by your Water Commissioners and after investigating all sources of supply, we make the following recommendations:

1. That the Steere Farm, or No. 3 Pumping Station, be operated to the maximum capacity of the wells.
2. That to augment the Steere Farm supply a filtration plant of 6 million gallons per day capacity be constructed at No. 1 Pumping Station to supply filtered river water which will be safe and palatable.
3. Chubb Road reservoir be enlarged, concreted and covered.
4. That supply mains of large

capacity be constructed to the low pressure areas to give higher pressure and adequate quantity of water for domestic and fire use. The cost of these improvements are estimated from the Maury & Gordon report to be as follows:

A 6,000,000 G. P. D. Filtration plant and appurtenances at No. 1 Pumping Station	\$260,000
Reconstruction of Chubb Road Reservoir	50,000
Supply Mains	285,400
Real Estate and Rights of Way	8,000
Engineering and Contingencies	75,000
	\$678,400

5 That your honorable body supply funds in the amount of \$678,400 to meet the above improvements, which will satisfy the present requirements of the water works system and which will be of sufficient capacity, we believe, for 10 years in the future with our present rate of growth. Both principal and interest of money borrowed for the Water Department can be paid from revenues of the Department.

Conclusions:

In conclusion we would commend to you the efficient and willing co-operation of the employees of the Water Works Department who have contributed so largely to the successful and economical operation of the Water Works System.

The statistical report of G. S. Vandawarker for the fiscal year is attached hereto.

Respectfully submitted,

GEO. J. MANN,
JOHN LINDENSCHMITT,
ROBERT NORRIS,

Board of Water Commissioners.

Report of Public Hearing
To the Honorable the Common Council,
Gentlemen:

The undersigned submits the following report of public hearing relative to the proposed closing, vacating and discontinuing of that certain portion of Belser St., from the West boundary line of Observatory to the East boundary line of Fourteenth St.

The Common Council, sitting in pursuance to its order and appointment for that purpose, met at the Council Chamber March 28, 1927, at 3 o'clock p. m. Meeting was called to order by President Woodbury and the following members were present: Ald. Slauson, Jocelyn, Sweet, Lucas, Hammial, Moore, Bursley, Freeman, Lutz, Pres. Woodbury, 10.

Due proof was filed of the publication, service and posting of notices of meeting.

Dr. and Mrs. W. T. Verhoeks, et al., appeared and were heard, it appearing from their statements that their lands did not abut said street and they claim no damage.

Mrs. Martha E. Claxton also appeared personally and by her attorney, Frank B. DeVine and stated that she owned a lot in the the northwest corner of Belser and Observatory Sts. and stated that if the street were closed, in her opinion, it would damage her property.

On request of George J. Burke, Attorney for the Regents of the University of Michigan and Frank B. DeVine, attorney for Martha Claxton, the meeting was adjourned to April 7, 1927, at 3 o'clock p. m.

Pursuant to adjournment, the Common Council met at the Council Chamber, April 7, 1927, at 3 o'clock p. m. Meeting was called to order by President Woodbury and the following members were present: Ald. Slauson, Jocelyn, Lucas, Dwyer, Hammial, Moore, Bursley, Freeman, Lutz, Pres. Woodbury, 10.

Frank B. DeVine appeared for Martha E. Claxton and stated to the Common Council that Mrs. Claxton withdrew any objection she previously made to proposed closing of said street. It further appearing from statement of

Fielding H. Yost that Mrs. Claxton's property had been purchased by the University.

Mrs. Anna Schryver appeared and stated that she felt that arrangements should be made to give the property owners in the neighborhood of Washington Heights and Observatory street a footpath through the proposed Athletic Field and also that Huron St. should be continued through to Observatory street.

After a general discussion of the proposed closing, Alderman Edgar Dwyer presented the following resolution:

By Ald. Dwyer:

Whereas, the Common Council has heard all persons appearing and desiring to be heard in the matter of closing Belser St., and after hearing the arguments in connection therewith, and,

Whereas, it also appears that the University has acquired all lands abutting said street, therefore be it,

Resolved, that that certain portion of Belser St. between the west boundary line of Observatory St. and the east boundary line of Fourteenth St. be closed, vacated and discontinued as a public street.

Adopted by following vote: Yeas, Ald. Slauson, Jocelyn, Lucas, Dwyer, Hammial, Moore, Bursley, Freeman, Lutz, Pres. Woodbury, 10. Nays, none.

On motion of Ald. Lucas, meeting adjourned.

Respectfully submitted,

ISAAC G. REYNOLDS,
City Clerk.

By Ald. Moore:

Resolved, that the report of public hearing, relative to closing of Belser Street, as submitted by the City Clerk, be approved and adopted as the action of this Common Council.

Adopted by following vote: Yeas, Ald. Slauson, Jocelyn, Maulbetsch, Graf, Sweet, Lucas, Dwyer, Hammial, Moore, Bursley, Freeman, Lutz, Pres. Woodbury, 13. Nays, none.

Moved by Ald. Dwyer, that matter of opening Huron Street, as requested at public hearing, be referred to the Street Committee to confer with the Athletic Association or University Department in charge. Adopted.

By Ald. Graf:

Resolved, that the Common Council resolve itself into a board of election canvassers and canvass the vote on the elections held in this city April 4, 1927.

Adopted by following vote: Yeas, Ald. Slauson, Jocelyn, Maulbetsch, Graf, Sweet, Lucas, Dwyer, Hammial, Moore, Bursley, Freeman, Lutz, Pres. Woodbury, 13. Nays, none.
